

**We are
a global
network
of smart
minds**

**Providing
cutting-edge solutions
in complex design
and engineering**

Like an explosion of color, ARX has dramatic reach and vibrant potential. We celebrate our wide spectrum of expertise. At our core, we contain rare elements: unique thinkers and creators.

Racing towards a future of efficiency and sustainability. ARX is driven by these individuals. With every team member exploring the borders of what we know, our impact grows, and our potential expands. The ARX universe is a nexus of talent and innovation, where infinitely more is possible.

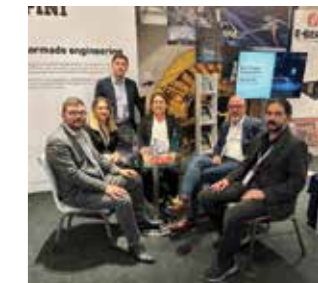

We are transforming communities one at a time, remaining focused on our mission:

Make it happen

**Extremely Large
Telescope (ELT)**
Chile
2017-2028
USD 3'100'000'000

Our multidisciplinary teams are made of

People

We are a comprehensive network of specialists, always integrating talent and expertise. Tackling complex design projects, ARX adapts and evolves with the dynamic and challenging global landscape. Continual evolution leads to continual growth.

Experts

We are experts in selected design disciplines; our team dives deep into technical niches while overseeing broad, multidisciplinary projects. This versatility allows us to confront any challenge – from the precise to the expansive – with confidence.

**CERN High
Luminosity Large**
Hadron Collider
(HL-LHC), Point 5
France
2016-2024
EUR 65'000'000

Projects in **75** countries

and **200** bridges

with well over **150** airports

in excess of **3'000** completed buildings

and **unlimited** ideas

including **4'000** km of railways and metro

with **5'000** km of tunnels

a boost of **25'000** MV in hydropower

Our branches act as entrepreneurial units, developing their own networks and relationships. This strengthens the entire group. They develop local know-how and combine it with global best practices, offering a full-service package to our clients.

Our **Glo**cal

approach

is central
to everything
we do

We are actively present in:

Albania, Argentina, Australia, Austria, Bolivia, Brazil, Chile, Denmark, Egypt, Ecuador, France, Germany, India, Israel, Italy, Nepal, Norway, Perù, Portugal, Saudi Arabia, Switzerland, Tunisia, Türkiye, United Arab Emirates, USA

360°

Throughout the lifecycle of a project

Due to our size and depth of skill, ARX performs highly in every modern engineering discipline. From the A of Australia to the Z of Zurich, we provide what clients, localities, and countries need most.

Our Organization

Our group is organized by geographical regions, each of which operates locally with a high degree of independence in alignment with our strategy. This allows us to be a true network of local entrepreneurs. Additionally, we have dedicated transversal organized business lines that provide targeted know-how to the regions and local entities, as well as a group service ensuring the global service framework to our decentralized operations. The company's board of directors and the executive board ensure the strategic vision and its subsequent implementation.

Brief technical overview

Areas of expertise

Infrastructure

Some of the largest infrastructure projects of our time comprise the core of our business. Using cost-efficient, sustainable solutions, ARX has designed and constructed traffic routes at local, national, and international levels.

City

We help our clients reach new heights in rapidly changing modern cities, providing reliable partnerships with our architects. Using creativity and innovation, we deliver on challenging urban projects.

Energy

From feasibility study to implementation, ARX is active in generating, distributing, storing, and consuming energy. In the increasingly complex energy sector, we are partners with our customers in seeking and analyzing solutions. Together we ensure their investments are sustainable and reliable long into the future.

Industry

The industrial world is evolving fast, with rising demands for quality, capacity, and cutting-edge tech. We're here to help businesses stay ahead. From optimizing production and facility design to offering expert talent in mechanical and electrical engineering, we drive innovation and efficiency to meet the challenges of today and tomorrow.

CompleXL

We aim to become the preferred choice whenever complex projects that require our input and value generation are in play. When innovation needs to take tangible form, we can conjure unconventional ideas and take on audacious challenges with the right expertise.
